

KRISKETS ROBBED AT WESTERLY

Former Norwich Family Lose Money—Jewels Stolen From Watch Hill Cottage—Young Men Fined For Theft of Watch—Policeman Edward E. West Injured While on Duty—Quaker Funeral For Miss Gardner—Raised Check Taken From Boston Letter Box.

The raised check of H. T. Kenyon & Co. of Westbury, which was presented to the Washington Trust company for payment Monday, and which was originally made payable to the order of Vaughan & O'Neil, Boston, was not picked up in the streets of Westbury. There was a possibility that the letter containing the check might have been dropped while being taken from the Kenyon office to the postoffice last Friday, although the members of the local firm did not consider that probable as extra care is exercised in such matters.

A letter of inquiry was sent to the Boston firm, and Wednesday morning a reply was received stating that the firm's letter box had been broken open and robbed early Saturday morning, and that it was known that three other letters besides the one from H. T. Kenyon & Co. had been extracted, and that each of these letters evidently contained checks.

It is probable that after the original writing on the check, the signature, had been nearly obliterated, and the amount raised from \$5.50 to two hundred and eighty-four dollars and eighty-four cents, and when the letter came to Westbury Monday morning and presented the check to the bank upon which it was drawn and where the signature would be readily identified, the date was changed to conform to the date of presentation to give the impression that it had just been issued, and to a representative of an out of town business house.

Robert G. Thackeray, the teller who received the check, at once became suspicious, knowing that it was not the custom of the Kenyon company to draw checks payable to bearer, and that the writing on the check was crude in comparison with the banking house and made his escape before he could be detected.

When description of the stranger was given to Deputy Chief Brown, that officer declared that the description tallied with that of a former resident of Westbury, who was expert in fraudulent check work, and who had recently been released from prison after serving a term for his wrongdoing. Mr. Thackeray stated just after the completion of Deputy Chief Brown as to the appearance of the fellow that was familiar which strengthened the opinion of Deputy Chief Brown as to the identity of the chap who presented the check.

Emory Krisket, one of the bosses in the Lorraine mill, who came from Norwich to Westbury, with his family, a few months ago, had been relieved of some of his hard-earned money. The Kriskets occupy the lower tenement of the Lorraine mill, on Broad street. Early Wednesday morning it was discovered that the screen from one of the windows had been removed during the night. This resulted in an investigation and Mr. Krisket was soon convinced that his home had been entered by a burglar and was certain that \$15 in cash had been taken, but nothing else of value was missing.

There was evidence that the house had been thoroughly ransacked and that the burglar was afterwards seen nothing else. No clue was found that would aid in the detection of the thief. The facts were reported to Deputy Sheriff William H. Casey, who viewed the premises.

The money was in a small tin box and was kept in a bedside drawer. Mr. and Mrs. Krisket were up late Tuesday night and sat in the room talking. Reference was made to the money in the box. Mrs. Krisket saying that she had taken one dollar out of the box that day, to which her husband replied that it was all right as there was enough left to pay the rent. It is possible that this talk was overheard by someone in the room, who was lurking about the place at the time, and that the robbery resulted.

There was a daylight robbery at the Watch Hill house, Tuesday afternoon between four and six o'clock, the particulars of which are kept secret in order that the thief might be traced to his own act, or for some other reason equally as ridiculous, especially as there is not the slightest clue to the thief's identity. The Watch Hill house, which has been occupied by the same party during the season, has left unoccupied and a thief who can tell gold from brass, sterling silver from plated ware and diamonds from rhinestones, took possession and hoarded himself to all that was valuable in the jewelry and trinket line, which included heirlooms of priceless value. Many articles were taken and their estimated value is placed at \$5,000.

Just as soon as the robbery was discovered, Manager Dick Hammond, and Sheriff John R. Wilcox by telephone from his cottage at the Hill, and also notified the Westbury police. A complete list of the articles stolen, with description, was given to the sheriff.

ITCHING ECZEMA ON HANDS
"Eczema began on the second joint of my thumb on my left hand several days ago. The itching began, and the eczema spread to the other hand. Sometimes the skin would be so itchy, and gave the appearance of being cut, and blood came out of the cuts. I suffered for several months, and grew worse all the time. Then I came to a doctor, and he told me I could describe from the itching and burning. I became more and more physically. Then I consulted another physician and he finally advised the Cuticura Remedy. I was cured after taking the first treatment and using the Cuticura Soap and Ointment. That was fifteen years ago, and I have never been troubled with it since. I owe my cure to the Cuticura Remedy. I have just advised a lady friend who is suffering with eczema on her hands and feet to try the Cuticura Remedy. (Signed) L. C. Warner, Lincoln, Del., Dec. 15, 1910.

Although Cuticura Soap and Cuticura Ointment are sold by druggists and Cuticura Remedy is a liberal sample of each, with 32-page booklet, free, will be sent, post-free, on application to Cuticura, Dept. K.K., Boston.

Why Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: *First*—The indisputable evidence that it is harmless: *Second*—That it not only allays stomach pains and quiets the nerves, but assimilates the food: *Third*—It is an agreeable and potent substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hall's Journal of Health.*

CASTORIA
Bears the Signature of

Letters from Prominent Physicians Addressed to Chas. H. Fletcher.
Dr. W. L. Leister, of Rogers, Ark., says: "As a practicing physician I use Castoria and like it very much."
Dr. W. T. Beoley, of Anshy, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy."
Dr. Raymond M. Everts, of Santa Ynez, Cal., says: "After using your Castoria for children for years it among me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation."
Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."
Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family."
Dr. Wm. I. McCann or Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."
Dr. Howard James, of New York, City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent results from its administration to other children in my practice."
Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name of your Castoria has made for itself, in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."
Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory."
Dr. William Belmont, of Cleveland, Ohio, says: "You Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."
Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria exclusively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."
Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, which is a great consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed."
Dr. L. O. Morgan, of St. Amoy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs."
Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."
Dr. Wm. L. Bosserman, of Buffalo, N. Y., says: "I am pleased to speak a good word for your Castoria. I think so highly of it that I not only recommend it to others, but have used it in my own family."
